

LATEST BY TELEGRAPH.

REPORTED FOR THE DAILY PRESS.

Four Days Later from Europe.

ARRIVAL OF THE NOVA SCOTIAN.

PORTLAND, March 23.—The steamship Nova Scotian, with Liverpool dates to the 19th inst., arrived here this morning, bringing four days later intelligence.

The American arrived out on the 8th inst. The ship David Stuart had landed the Neapolitan exiles at Queenstown, they having compelled the Captain to this course.

A public article which appeared in the Paris Monitor, Napoleon's organ, caused a considerable rise in the funds at London, Paris and Vienna.

Prince Napoleon has resigned the Ministry of Algeria, which added to the confidence in the French Government.

Great Britain.—The ship David Stuart arrived at Queenstown on the 8th inst., having on board the Italian exiles. As soon as the Neapolitan steamer left the ship, the exiles compelled the Captain to steer direct for Cork. When the exiles landed at Queenstown their enthusiasm rose to such an intensity that some of them actually kissed the soil. Another account says that when the ship was outside the Straits of Gibraltar, the exiles openly mutinied, demanding that the Captain should steer for Ireland. He flatly refused, when he was deprived of the command of the vessel, and the Second Mate appointed commander. The latter complied with the instructions of the passengers.

The following proceedings have taken place in Parliament since the sailing of the last steamer.

Mr. Deacon gave notice of sundry amendments to the Reform Bill, extending still further the elective franchise.

Mr. D'Irrell, in reply to a question put by a member of the House, said that the government did not intend to grant exclusive privileges to the Atlantic or any other telegraphic company for the establishment of telegraphic communication between England and America.

Lord alluded in the House of Lords to the arrival of the Neapolitan exiles at Cork, but did not suggest any official action in the matter.

It is reported that the government dispatches sent to America to the British Admiral on the Pacific, have recently frequently failed to reach their destination in regular course.

The leaders of the old Whig party have held a meeting, and resolved to request Lord John Russell to propose certain amendments to the Ministerial Reform Bill. There was much excitement existing regarding this bill, and meetings in opposition to the Government measure were being held throughout England.

The announcement of the resignation of Prince Napoleon, from the Ministry of Algeria, gave great uneasiness to the French Government, as well as on the continent.

Austrian securities had an immense rebound, having advanced in Vienna, from Friday to Monday, fully 4 per cent, while exchange on Vienna had declined in London 7 per cent, in three days.

The Times and other leading London journals extend a cordial welcome to the Neapolitan exiles.

FRANCE.—Notwithstanding the marked effect on the funds produced by the pacific article in the Monitor, the London journals sneer at it and throw doubts on its sincerity. The journals of Vienna also criticize it in a skeptical light.

The Paris Constitutional reasserts that the French troops are evacuating Rome.

M. Chasseloup-Laubat succeeds Prince Napoleon in the Ministry of Algeria.

The resignation of Prince Napoleon is regarded as a peace offering, the Prince being in favor of war. The Emperor refused to accept the resignation until it had been tendered three or four times. His retirement was caused by a difference of opinion with the greater part of the Cabinet on the question of external and internal policy.

Trade in France has become duller.

The Constitutionnel publishes an article, signed by its political director, explaining the political article in the Monitor, saying that it must not be regarded as a retrograde movement, caused by the crusade which has mere active propaganda had succeeded in raising in Germany.

Prince Napoleon will be appointed Grand Admiral.

Switzerland.—The Federal Council has issued a circular, announcing its determination to maintain the neutrality and integrity of Switzerland.

Austria.—The Paris Monitor's pacific article produced a favorable impression on the Emperor.

Count Buel and the leading statesmen believe that peace will be maintained. There are, however, entertained of explosions in the Italian Duchies.

Lord Cowley still remained at Vienna.

NAPLES.—The health of the King was such that it was supposed he would never be able to rule again. The Queen conducts the State affairs, and it is reported to have caused the King to sign a treaty offensive and defensive with Austria.

It was reported that the Neapolitan Government has offered to furnish the Pope with four battalions of Swiss troops.

Spain.—Mr. Castelar, the American Minister, had arrived at Madrid.

ITALY.—Attempts of conspirators continued to be made in Milan. The discontent of the Italians was general, causing a complete stagnation of business. The fortification of Pavia was continued with much activity; new batteries mounted with guns of the heaviest caliber were being constructed.

PRUSSIA.—The young Prince had been christened Frederick William Victor Albert.

By the Tehuantepec Route.

Later from California.

NEW ORLEANS, March 22.—The steamship Quaker City, with dates from California to the 5th inst., has arrived here.

The steamships Sonora and Orizaba, which sailed on the 5th inst., took \$1,500,000 in treasure to Panama.

Business at San Francisco was good. Provisions active. Sugar had improved.

A grand volcanic eruption of Mahanah, Sandwich Islands, occurred on the 23d of January. A whole village was destroyed by lava. No lives lost. The eruption was still active on the 13th ult.

The Quaker City furnishes later intelligence from Mexico, but without date. Miramon was at Orizaba. The defeat of a portion of his army by Liave is confirmed.

Degallado was preparing to attack the capital. There is nothing reliably new.

From Washington.

WASHINGTON, March 23.—Gen. Henningsen will leave Washington to-day for Savannah, to collect emigrants for Arizona. The emigrants of the Arizona Association, will rendezvous at Powder River, Texas, in July, and at El Paso, on the Overland Road, by the beginning of September. Three hundred men have engaged to come down the Mississippi, from the West. Men are assembling in New York, Ohio, Kentucky and Alabama.

Private advices from Tampico express confidence in Vera Cruz holding out, unless there shall be treachery.

The garrison at Tampico had been reduced to less than one hundred and twenty men, by the withdrawal of the liberal troops for the defense of Vera Cruz. Tampico had not been threatened, but fears were entertained of the loyalty, especially of the men of war belonging to the liberals, which were in that port.

President Buchanan presided at the first regular meeting of the Washington National Monument Association held last evening, under the auspices of Vera Cruz. He made a few appropriate remarks, urging the co-operation to appeal to the people in behalf of their noble enterprise. A committee was appointed to prepare an address to the public.

A delegation of the Winnebago Indians from Minnesota, had had a conference with the Commissioner of Indian Affairs, Mr. Mix. The object is to concentrate their tribe on a portion of the reservation belonging to them, dividing the land among their families and to effect an arrangement by which the remaining part of the reservation shall be sold for their common benefit. The Delawares of Kansas are, also, represented here on matters connected with their pecuniary and municipal affairs.

A post-office has been established at Corvallis, in the Pike's Peak region, and Mathias Snyder, formerly of Virginia, has been appointed postmaster. The contract for a daily mail service from Leavenworth to Corvallis, has been given to Major Ben. McCullough and B. F. Ficklin, who have made extensive arrangements for the transportation of passengers. The Secretary of War has appointed Dr. I. A. Mallan, physician to the expedition, which has been organized to conduct a military wagon road from Fort Benton to Walla Walla. Lieut. Mullan has appointed his assistant, and will leave for the Pacific by the next steamer. Lieut. Warren will be appointed to command the expedition, to continue the surveys and explorations, conducted by that officer in 1855, '56 and '57.

The Secretary of the Navy is making every effort to have the new steam sloop of war ready for service at the earliest practicable period. The Engineer in Chief of the Navy left to-day to inspect the machinery for the two new in course of construction, at Norfolk.

NEW YORK, March 23.—The ship Centurion, which arrived here to-day, brought in a portion of the crew of the bark Dromahair, from Quebec for Sligo Island, abandoned at sea. Five of the crew died of starvation. The crew had been living twenty-one days on half-biscuit a day, and the rain-water they could catch.

The bark Panara had also arrived with the French ship Bengal, from Martinique, bound for Bordeaux, abandoned at sea.

NEW YORK, March 23.—A chess match is progressing at Paris. Mr. Morphy against Mr. Mongredien, President of the London Club. Four games had been played, Mr. Morphy winning all. The winner of the first seven games is to be the victor.

Non-Arrival of the America.

HALIFAX, March 23.—P. M.—The steamship America has not yet been signaled below. A thick snow-storm prevails. Her date will be to Saturday, the 12th inst.

Launch of a Sloop-of-War.

NORFOLK, Va., March 23.—One of the new sloop-of-war was launched to-day from the Navy-yard in splendid style.

River News.

St. Louis, March 23.—M.—The river continues to rise at the rate of about one inch per hour. Nothing new from the upper streams. Weather clear and warm; mercury 60.

PITTSBURGH, March 23.—M.—River eleven feet by the pier mark, and falling. Weather clear and pleasant. Arrived—Anson, Departed—Dr. Kane, for the Illinois River, and Ida May for St. Paul.

PITTSBURGH, March 23.—P. M.—River ten feet eight inches by the pier mark, and falling. Weather clear. No arrivals or departures since noon.

LOUISVILLE, March 23.—M.—River rising rapidly, with over 15 feet in the canal and 12 feet on the falls. Weather clear; mercury 69.
